Experiences of our Future Teachers:

1. Being a teacher is the most difficult job as teachers are the pillars of the nation. They are responsible for educating the whole nation. Being a teacher is a great and hectic responsibility as one has to put all its efforts and energy for educating the child. After becoming a teacher makes me understandable, as teacher puts all the knowledge to nurture the child's future and make him capable to compete and survive in this world. After becoming teacher, I understand how much difficult it is for the teacher to manage the whole class.

5. A teacher is a person who only teaches academic subjects or any course but he or she change the overall life of a student. Teacher focuses on the personality of the students and tries to remove the inner darkness of illiteracy and fill the light of knowledge in the inner will of his students. Today I played a role of teacher and it was a great experience for me.

6. Some lines on today's experience being a teacher. It was nice but to be honest wearing heels all the day was kinda hesitating. And I come to know the effort our teachers do for teaching us in the classrooms. They have to prepare topics a night before giving a lecture. And I would say "by being a teacher I got to know that teaching is not everyone's cup of tea"! Teachers are the Real Gems.

7. Today... On account of birth anniversary of Dr. S Radha Krishnan, our college organised students as teachers activity. And I'm really grateful for this opportunity to be a part of the activity to play a role of Nidhi Suri Ma'am. Giving lecture is easy.. but.. making others understand that lecture is really tough....That's what our teachers do. And we must appreciate each and every teacher for this.. not just one day.. but our whole life...Without mentioning the efforts and support of my special student... Nidhi mam.. This is going to be incomplete... The way ma'am encouraged me and act as a student.. really made my day.. The moments we shared today will lifelong cherishing and memorable....Thank you everyone who not gave but blessed me with this opportunity...
